

Laura Grzunov is a research assistant at the Department of Information Sciences at the University of Zadar. Since 2019, she is a PhD student at the postgraduate study program *Society of Knowledge and Information Transfer* at the University of Zadar.

She teaches courses in digital humanities, information organization, processing of old and rare material, management of information collections, and evaluation of information services at the undergraduate and graduate levels.

Her research interests are focused on digital humanities, manuscript studies especially those written in glagolitic script, the use of digital methods and tools for manuscript research, the digital transformation of cultural heritage, the application of crowdsourcing in scientific projects and in the field of cultural heritage, and the management of information collections.

She is a collaborator on the scientific project *Linguistic, paleaographic and codicological analysis of fragments of the collection of Ivan Berčić of Zadar provenance in virtual research environment* (IP.01.2021.22) and *Protection of Zadar cultural heritage from the negative impact of microorganisms* (IP-2021-01).

She was a collaborator on the interdisciplinary scientific project *Digitization, Bibliographic Description and Research of Texts Written on Glagolitic, Croatian Cyrillic and Latin Scripts Until the End Of 19th Century in Zadar and Šibenik Area (Written heritage)* which is being carried out at the University of Zadar by the Department of Information Sciences in co-operation with Vestigia Manuscript Research Centre of the University of Graz, Austria.
